[Doctor Java Compiler For Mac](#)

The screenshot displays the Doctor Java IDE interface. The top window shows the source code for `CompilerErrorModel.java`. The code includes comments and Java syntax for a class that manages compiler errors. The console window at the bottom shows the following interactions:

```
Welcome to DrJava. Working directory is /Users/dan/Code/dj
> String hello(String arg) { return "Hello, " + arg; }
> hello("mom")
"Hello, mom"
> import java.util.List
> import java.util.ArrayList
> List l = new ArrayList()
> l.add(23)
true
> l
[23]
> |
```
